Spotdiagrams for the Cassegrain Reducer

Spotdiagramme für Cassegrain Reducer

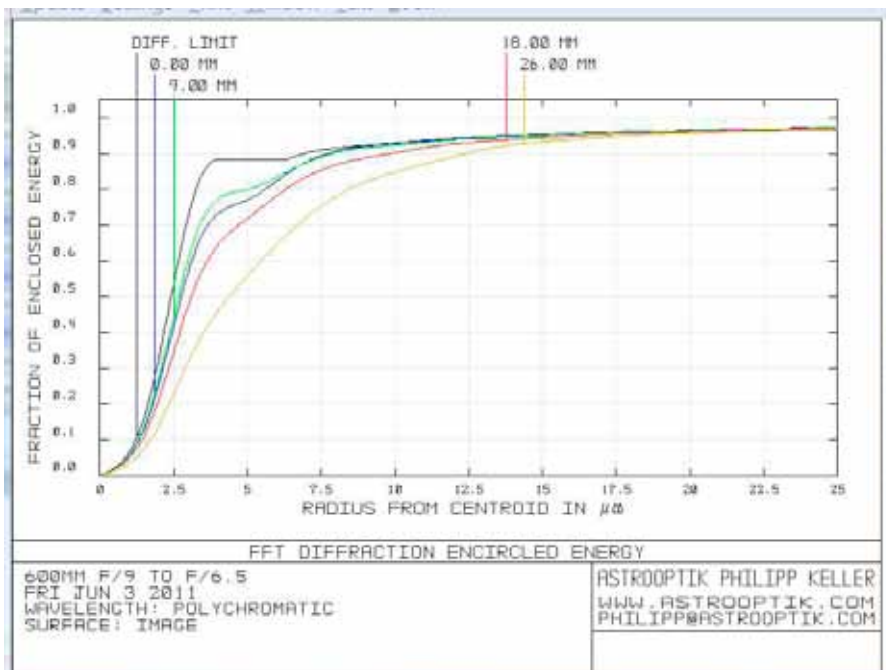

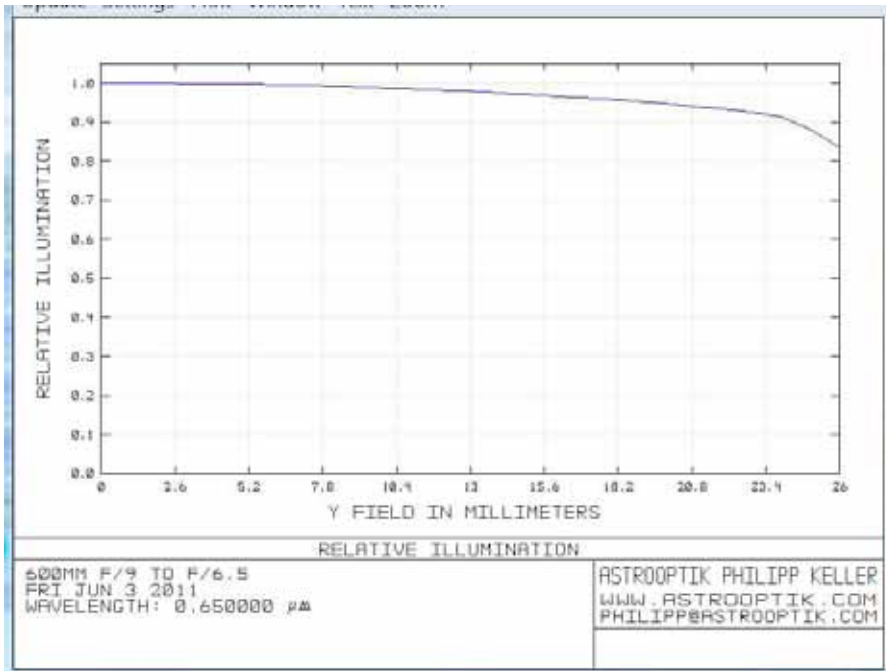

As with the RC, ASA also has a Reducer Corrector available for classical Cassegrain Telescopes with an aperture of 400mm and beyond. Here as an example our reducer corrector 0.72x for full format CCD chips. For systems f8 or slower.

Wie für die RC bieten wir auch für Cassegrain ab 400mm Durchmesser Reduktoren an. Hier als Beispiel unser 0.72x Reduktor für Vollformat 4x4 (16803). Geeignet für Systeme f8 oder langsamer.

The frame size of the corrector is 4 inches and provides 90 mm ample back focus suitable for all common CCD cameras and filter wheel combinations.

Die Fassung beträgt auch hier 4" und ist mit 90 mm Backfocus geeignet für alle gängigen CCD-Kameras in Kombination mit Filterrad.
